Policy

The Culture and Leisure Department is committed to making its facilities and services as accessible as possible. This includes making adjustments to premises, pricing structures and procedures so as to allow access to disabled persons wherever this can be seen to be reasonably achieved.

This policy therefore is similar to the 'Reasonable Adjustment' required under the UK's Disability Discrimination Act although it is not intended to replicate the full requirements of the UK Act.

In addition to the provision of improved physical access, suitable signage and lighting etc, it is recognised that some disabled people may require an essential companion to enable them to attend an event or participate in a particular activity.

In order to assist, the Department's policy is that any carer required by a disabled person will be admitted free to an event held on any of its properties where a full price ticket has been purchased from the Department.

Fixed seating and other practicalities mean that desired seating arrangements are not always possible although every effort will be made to accommodate such requests.
